

Capability Statement — Construction Division

Company Overview

Northlane Enterprises LLC is a Dallas-Fort Worth, Texas company that bids on public and private construction projects and delivers through a vetted subcontractor network. Northlane manages procurement, subcontractor sourcing, and project delivery with a single point of contact for the owner or general contractor.

Core Competencies

- Procurement Management — End-to-end sourcing and purchasing so your project gets the right materials, equipment, and vendors on schedule.
- Subcontractor Sourcing & Management — Vetted subcontractors matched to your trade, scope, and schedule, managed from bid to close-out.
- Material & Equipment Procurement — Sourcing and purchasing for building materials and construction equipment, tracked from order to delivery.
- Bid & Proposal Management — We prepare and manage bids and proposals for public and private construction opportunities.
- Pre-Construction & Estimating — Budget estimating and planning support before ground is broken, so scope and cost are aligned early.
- Construction Project Management — Day-to-day oversight of schedule, budget, quality, and trade coordination through project close-out.
- FF&E Procurement — Sourcing and delivery coordination for furniture, fixtures, and equipment for new or renovated space.
- Facility Maintenance & Repair — Ongoing and on-demand maintenance and repair coordination for existing facilities.

Differentiators

- Single point of contact for procurement, subcontractor, and project management coordination
- Vetted subcontractor network focused on the Dallas-Fort Worth service area
- Does not self-perform construction — delivers through qualified, trade-matched subcontractors

Registrations & Contract Vehicles

- Texas Centralized Master Bidders List (CMBL): Pending
